Social Justice – access to care is critical

Everyone to move toward the “Recovery” place

Mind, body, spirit – holistic approach

Who is the Target Population?

Individuals with SMI, SED, SA

Public MH system/private MH system

Target all, funded, private, faith-based...

All Emotional issues – All not just SMI

Included Awareness, acceptance and respect

Early identification, intervention, prevention

Recovery, presumes folks are already in systems: Important to include prevention, recognition, access, and recovery

Transformation is a process

Recovery is the goal

Support using the opening statement on President’s New Freedom Commission as a vision statement for Indiana with the following modifications: Modify to include persons accessing the MH system at any stage; Promote mental Health and wellness versus Mental Illness and ; Include three types of prevention (Primary – prevention, Secondary – getting intervention to keep from getting worse, Tertiary – recovery).

Support Use of 10 SAMHSA Points per hand out
